Program Objectives

The Program provides Audi franchise Dealers with a simple, efficient, and proven remarketing channel in which to sell and liquidate pre-owned Audi and Volkswagen inventory. The Program capitalizes on AFS's auction expertise, available buyer incentives, established vendor relationships, scale and logistics, and extends many of these benefits to Eligible Dealers while presenting a branded environment dedicated to the sale and remarketing of pre-owned Audi and Volkswagen brand vehicles.

Program Eligibility

Vehicles submitted by Participating Dealer to AFS for consideration and acceptance by AFS into the Program must satisfy the following preliminary requirements:

- Dealer must be at the Performer or Champion level in the Volkswagen Affinity Program.
- Vehicles must be owned by Participating Dealer.
- Vehicles must be either a Audi or Volkswagen brand vehicle.
- Vehicles must be current model year or newer or within the three (3) previous model years.
- Vehicles must have fewer than 100,000 miles.
- Vehicles must have a clear, negotiable title.
- Vehicles must not have a lemon law or corporate buyback history.
- Participating Dealer must disclose all known defects (including collision repair, structural damage (as defined by the NAAA Structural Damage Policy), missing or inoperable parts and mechanical defects, true mileage unknown, flood/hail damage).
- Vehicles purchased from AFS through VolkswagenDirect or AudiDirect or through a prior AFS Sponsored Auction Sale must be owned and retained in Participating Dealer's inventory for at least thirty (30) days from the date of acquisition.

The failure of Participating Dealer to disclose any known defects or the falsification of any required disclosures may result in the suspension or exclusion of Participating Dealer from the Program.

Program Sale Process

- Participating Dealer must complete the Participation Agreement, execute and return the Limited Power of Attorney form authorizing AFS to take any and all actions on behalf of Participating Dealer necessary to perform the services contemplated under the Participation Agreement with respect to Program Vehicles.
- At least seven (7) days prior to the date scheduled for a particular AFS Sponsored Auction Sale, Participating Dealer will complete an Auction Request Form identifying the Eligible Vehicles that Participating Dealer wishes AFS to consider for acceptance into the Program and for inclusion in the particular AFS Sponsored Auction Sale. Participating Dealer will be required to submit such requests to auctionplus@audifs.com.
- Following the receipt of an Auction Request Form for a particular AFS Sponsored Auction Sale, the designated AFS Remarketing Representative will review the Floor Prices established by Participating Dealer for all Eligible Vehicles. If the AFS Remarketing Representative believes the Floor Price established by Participating Dealer for an Eligible Vehicle materially exceeds what would be an appropriate Floor Price for the Eligible Vehicle taking into account current market conditions, then the AFS Remarketing Representative or the Participating Auction Representative will contact Participating Dealer.
- Participating Dealer will be responsible making arrangements for, and all costs and fees associated with, transporting Program Vehicles from Participating Dealer's facilities or other designated location to the Participating Auction's facilities. All Program Vehicles must be delivered in Sale Ready Condition (other than detailing) with clear and negotiable titles.

- A Participating Auction Representative will inspect each Program Vehicle upon arrival to ensure it is in Sale Ready Condition and prepare a Condition Report for each Program Vehicle.
- All Program Vehicles will be washed and prepped in accordance with the election made by Participating Dealer in the applicable Auction Request Form, and the description and Condition Report for each Program Vehicle will be added to the Sale Catalog by the Participating Auction as instructed by the AFS Remarketing Representative along with any required sale disclosures and/or announcements consistent with the sale announcements and/or disclosures utilized with AFS Vehicles.
- Participating Dealer will be identified in the Sale Catalog and bill of sale at each AFS Sponsored Auction Sale as the owner/seller of the Program Vehicles included in the Run Order.
- During each AFS Sponsored Auction Sale, the designated AFS Remarketing Representative will represent Participating Dealer on the Block and will have the power to accept bids on behalf of Participating Dealer.

Program Arbitration Process; Repurchased Program Vehicles

- Any arbitration proceedings relating to Program Vehicles sold at an AFS Sponsored Auction Sale will be conducted and administered by AFS in accordance with the AFS Arbitration Guidelines.
- An AFS Remarketing Representative will facilitate any arbitration conducted and administered by AFS.
- Participating Dealer grants the AFS Remarketing Representative the sole authority to resolve arbitration issues, including, but not limited to, approving further repair of or concessions for an Arbitrated Program Vehicle, or directing a Participating Auction to repurchase an Arbitrated Program Vehicle. If AFS authorizes a repair, concessions or repurchase of an Arbitrated Program Vehicle, the cost of such repair or concessions will be charged to Participating Dealer by the Participating Auction in accordance with the terms of Participating Dealer's Agreement with the Participating Auction.
